

Stainless Steel Swine Pens

LC1803S Stainless Steel Swine Pen System

Custom designed to meet your needs. These swine pens are fabricated in panel form similar to the Animal Enclosures (LC 700 Series). All the panels are Stainless Steel construction with hardware and other components of eight Stainless Steel or other non-corrosive materials. Pens may be constructed from 4ft wide and 4ft deep to 8ft wide and 8ft deep. All pens are 102cm high inside, panels are mounted on levelling feet and **Featherbed Floors** are available. **Optional** components include back panels, Stainless Steel feeders, water troughs and automatic water systems.

Optional:
